

Nong Khiew Royal Project Development Center

Nong Khiew Royal Project Development Center these days has set up field demonstration plots in order to find suitable crop varieties for local area and support local farmers to cultivate varied crops under Food Safety Standards: Good Agricultural Practices (GAP) and to create farmers' sustainable income as well as their better livelihood. Furthermore, the center supports the community engagement for each individual's and community's strength, natural resource as well as environmental restoration & conservation, reforestation project known as "Three Forests, Four Benefits", soil and water conservation by Vetiver grass growing, chemical use reduction campaign, and environmental contamination monitoring campaign. The center itself also becomes a learning center on highland agriculture for students, farmers and others who are interested.

Background

Nong Khiew Royal Project Development Center started its work in 1980 when His Majesty King Rama IX visited the villagers in Baan Mai Samak-kee and accepted the village to be under the Royal Project Foundation responsibility. In the collaboration with Chiang Mai Provincial Forest Office and the Land Development Department, Nong Khiew Royal Project Development Center was set up and the land used for temperate crop cultivation was developed and allocated to local farmers as replacement to opium poppy cultivation.
