

Application of the Royal Project Sustainable Highland Development Model in an Unsettled and Unpredictable VUCA World

Objectives:

- To provide participants with knowledge and understanding of the Royal Project Sustainable Highland Development Model (RPF Model) concept;
- To share experiences with participants on the expansion the Royal Project's success across other highland areas; and
- To provide a platform for participants to discuss and share good practices as well as building a concrete network.

Target group:

Public/private sectors employees in charge of rural development

Participants:

30 participants

Date:

5 Days, May-April 2023

Course Coordinator:

Adirek Inthafongkham

Methodology:

Focus group discussion and field visit

(1) Focus group:

- Area-based approach development in the Thai highland
- Using the Royal Project Model in other highland areas
- Community Development Plans and the preparation process
- Stakeholder collaboration
- Participants' case studies

(2) **Field visit:** Development areas (2-3 locations)

(3) **Wrap up:** Lessons learned and feedback
